**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on March 8, 2006.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 1-12 is/are pending in the application.
- 4a) Of the above claim(s) 2-7, 10 and 11 is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1, 8, 9 and 12 is/are rejected.
- 7) ☒ Claim(s) 1-12 is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

**Application Papers**

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 05/27/2005 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All    b) ☐ Some \* c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of Species 3 in the reply filed on March 8, 2006 is acknowledged.

Claims 2-7, 10, and 11 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on March 8, 2006.

### ***Specification***

2. The abstract of the disclosure does not commence on a separate sheet in accordance with 37 CFR 1.52(b)(4). A new abstract of the disclosure is required and must be presented on a separate sheet, apart from any other text.
3. The disclosure is objected to because of the following informalities:
  - a. The Brief Description of Drawings section is objected to for referencing the claims. The claims are subject to being changed, cancelled, or renumbered, and referencing them would make the disclosure improper and indefinite. The references to the claims should be removed from this section.

- b. The Detailed Description section is objected to because there is no specific description with reference numbers of each drawing figure that describes how the invention works. Appropriate correction is required.

### ***Claim Objections***

4. Claims 1-12 are objected to because of the following informalities: The claim numberings (c1, c2, c3, etc...) are not acceptable. The claim numbers must specifically state "claim 1, claim 2, claim 3, etc..." or use the numbers "1, 2, 3, etc...". Appropriate correction is required.

### ***Drawings***

5. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "powered mechanism" in claim 12 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet,

Art Unit: 3637

and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 8 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

8. Claim 8 recites the limitation "the stair" in line 2. There is insufficient antecedent basis for this limitation in the claim. The examiner is unsure whether the applicant intends to recite the phrase "the stair", or "the spiral stair apparatus" as recited in claim 1.

Art Unit: 3637

9. Regarding claim 9, the phrase "for example" in line 3 renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

***Claim Rejections - 35 USC § 102***

10. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

11. Claims 1, 8, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Hein (US 3729063).

12. Regarding claim 1, Hein discloses a telescoping ladder assembly (11) that is capable of acting as a spiral stair apparatus. The assembly (11) has a telescoping center pole (15, 18) that is capable of being collapsed. It has steps (30) that are not permanently fixed and can be moved angularly from their in use position via a pivot (29). The steps are also capable of moving vertically from their in use position when the center pole (15, 18) is collapsed.

13. Regarding claims 8 and 9, the assembly (11) has a telescoping center pole (15, 18) that is capable of being collapsed and stored in a configuration that is different than the configuration during use.

14. Claims 1 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by the Viking Offshore Entry System Selstair ([http://www.viking-life.com/usr/viking/vikingdotcom.nsf/va\\_webpages/OffshoreEvacuationoSelstair?opendocument](http://www.viking-life.com/usr/viking/vikingdotcom.nsf/va_webpages/OffshoreEvacuationoSelstair?opendocument) , dated back to August 17, 2002).

15. Regarding claims 1, Viking discloses a collapsible spiral staircase (A) in which the steps (B) can be moved vertically from their in-use position.

16. Regarding claim 12, the steps (B) are raised and lowered by a powered mechanism in the form of a hydraulic winch system (not shown, in product description).

***Conclusion***

17. An examination of this application reveals that applicant is unfamiliar with patent prosecution procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

A listing of registered patent attorneys and agents is available on the USPTO Internet web site <http://www.uspto.gov> in the Site Index under "Attorney and Agent Roster." Applicants may also obtain a list of registered patent attorneys and agents located in their area by writing to the Mail Stop OED, Director of the U. S. Patent and Trademark Office, PO Box 1450, Alexandria, VA 22313-1450

18. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hill (US 535759) discloses an extension ladder with a mechanical means of raising and lowering its steps. Benney (US 737197) discloses a spiral staircase with steps that can move horizontally from their in-use position. Bingham (US 4132288) discloses a ladder with a center pole having movable steps. Strickland (US 5040635) discloses a pole ladder with a center pole having steps that are detachable. Carmel (US 4378862) discloses a portable spiral staircase with steps

Art Unit: 3637

that swing horizontally and a telescoping center pole. Bailey (US 2052439) discloses a telescoping ladder with a center pole having steps that rotate angularly.

19. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Devoti whose telephone number is 571-272-2733. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lanna Mai can be reached on 571-272-6867. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
